

TWO ALDERMEN SAY WOODBURY SHOULD BE FIRED

Griffenhagen and Downing Are Said to Favor That Recommendation.

THREE OPPOSE PLAN.
Dowling, Mulligan and Brown Investigators Who Do Not Favor Removal.

The Aldermanic Committee which for six weeks has been investigating the Street Cleaning Department held an informal meeting to-day for the purpose of discussing its further proceedings. The session was called, not something of the proceedings.

It is said that the committee stands 2 to 2 for a general condemnation of the department management, and 2 to 2 for a recommendation that Commissioner Woodbury be summarily removed.

The members for removal are said to be Chairman Griffenhagen and Alderman Downing. Alderman Brown is said to be willing to join with them in a condemnation of the department, but he does not think that any wrongdoing has been traced to the Commissioner, and believes the worst that can be charged against him is too much confidence in his subordinates and a lack of business acumen in making contracts for the department.

Stand Up for Woodbury.
Against this very stand Alderman Dowling, or Tammany Hall, and Alderman Mulligan. Alderman Downing contended that not a single charge had been sustained and that the department has been shown to have been conducted with the utmost business acumen and its duties performed economically and as well as possible. Alderman Mulligan would not go as far as Alderman Downing in his commendation of the department, but took the position that the charges against the Commissioner have not been proved and that the investigation, while it has shown some evils that should be corrected, has not succeeded in fixing the blame for these on any person connected with the department.

Alderman Griffenhagen was in favor of following up several developments by "taking further testimony," but against that course arose the question of money. The appropriation made for the committee has been exhausted. The amount available is \$10,000, with the understanding that \$15,000 more might be drawn on at the discretion of the committee. If more testimony is taken, more money will be needed. This is the only argument against the taking of more testimony.

That Pat McGarvey Story.
Among the matters mentioned as only skimming the surface is the contribution of \$25,000 alleged to have been made by Pat McGarvey for his "services" in securing the ash removal contract for Kennedy, who, it is developed, was used by Brady as a cat's paw in the transaction.

Another matter is the division of \$30,000 between six men represented by Luke D. Stapleton. This money was paid out as a bribe to buy up valuable dumping privileges, but it developed that not one cent went to the man who owned the dumping privileges and who was represented to be the seller. The money was paid to six men who were interested in bids against the successful bidder at the first letting, and they withdrew from the competition thereafter, while the dumping privileges were retained where they were at first, and were never transferred to the alleged purchaser or holder of the rights.

The Marjorie dump trimming contract was only skimmed. The real witness that could tell a great deal is said to be Mary Brown, who disappeared when the investigation commenced and has not been heard from since. A connection the committee wants to know more about how it came that forms for contracts should be so advertised were so drawn that nobody but those now doing the work could be successful in bidding for the contract. It is said that "Nobody but a fool would sign it."

Where Probe is Needed.
A great many other questions have come up about which the committee should know more—stable practice in condemning and selling horses, hiring horses, paying for feed, and supplying feeding hired horses and a lot of other details. The true inwardness of the handling of horses and government property to a contractor, the reason for a failure to advertise the dump trimming contract for more than four years, the practice of advertising for a large number of horses than any firm was one can deliver, and a host of other things, and a half to get them. These and a dozen other matters are included in the list of things that the committee should investigate further.

No decision was reached to-day, but it was agreed that the committee should take a general canvass of the situation in the Board to-morrow and decide what course to pursue. It is predicted that no report will be made on the investigation until some time late in the summer.

S.S.S. PURELY VEGETABLE
The fact that S. S. S. is a purely vegetable preparation, containing not the slightest trace of mineral in any form, has been one of the strongest points in its favor during its forty years of existence. It is recognized everywhere not only as the best of all blood purifiers, but the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic dyspepsia, unfavorably affecting the bowels and so damaging the system that even if the original cause of the disease has been removed, it is left in such a deranged and weakened condition that the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral property in some form. Being made entirely of roots, herbs and barks it is absolutely harmless to any part of the system, and health to every part of the body. S. S. S. removes all poisons, freshens and purifies the blood and gives better and more lasting results than any other blood medicine. S. S. S. is the very best treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison and all troubles due to an impure or poisoned blood supply. Besides being the King of blood purifiers S. S. S. is the best and most invigorating of all tonics.

WAVES ENGULF LAKE SCHOONER IN FIERCE STORM

One Man Lost and Seven Others Rescued as Vessel Goes Down.

CLEVELAND, May 28.—Battered by a fierce storm that swept Lake Erie early to-day the schooner Mabel Wilson sprang a leak and sank just outside the Cleveland breakwater. One sailor, whose name has not been learned, was drowned.

Seven other members of the crew were rescued after a hard fight, three of them being taken off by the tug Lutz, and four by the life-saving crew. The Mabel Wilson arrived off the harbor shortly before daylight, and in response to her signals the tug Lutz went out and tried to bring her inside the harbor.

Because of the heavy sea the tug was unable to handle the vessel and the schooner was anchored in the hope that she might ride the storm, but the waves soon engulfed her. Capt. Gotham and Mate Gunnison, of the schooner, were badly hurt while being taken from the sinking vessel. They were taken to the Marine Hospital.

The vessel was loaded with ore from Escanaba. She was of 2,500 tons burden and was owned in Detroit. Masters of incoming vessels report the storm which has prevailed since Saturday to be of unusual violence.

The captain of the steamer Erin, which arrived here to-day, reported the drowning of his second engineer, Penn Wilson, of Buffalo, who went on deck Saturday night and soon after was reported missing. No trace of him could be found, and although the steamer turned about and searched in the vicinity his body was not seen. Wilson disappeared as the steamer was passing Point Abino, which is not far out of Buffalo. The Erin reported that a heavy sea was running all the way up, and the voyage was an exciting one. The passenger steamer from Buffalo and Detroit weathered the gale of last night in safety and arrived here on schedule time to-day.

Jacob Barnett, of No. 220 West Fifteenth street, who has for years made a living by going bail for east side pickpockets, pleaded guilty to-day to perjury when arraigned before Recorder Owen in General Sessions. The specific offense occurred on Jan. 23 last, when Barnett appeared before Magistrate Green in the Essex Market Police Court and went on a bond for \$1,000. Barnett swore that the property at No. 122 Gates avenue, Brooklyn, belonged to him. He has been going on bonds for the last six years. The property belongs to his mother. An investigation was made at the instance of another bondsman and Barnett's arrest followed.

WITTE LEAVES RUSSIA AS CZAR FACES A CRISIS

Revolution Threatens and Only Reform Cabinet Can Save Country.

ST. PETERSBURG, May 28.—Count Witte and his wife have gone abroad. After a visit to their daughter at Brussels they intend to take the baths in Germany. The Count spoke in an exceedingly pessimistic way to friends before he left St. Petersburg.

The gloomy feeling over the outlook continues to grow. The Government, as is usual in every crisis, seems to be hesitating as to which course to pursue. The Emperor refuses to yield to the counsels of the Court camarilla, but his attitude continues to be negative. He seems to cling to the idea that a compromise is still possible. Several official notes have been issued denying that the Government intends to resort to force, but at the same time there is no evidence that the czar is ready to yield to the demand for the supersession of the present Ministry with one from the majority in the lower house of Parliament.

The result is a virtual deadlock, the persistence of which can only serve to diminish the chances of a peaceful settlement. The peasantry, whose hopes are centered in Parliament, will undoubtedly be profoundly stirred by the Government's refusal to distribute the crown and church lands and recognize the principle of the expropriation of private holdings, and many people expect to see the destruction of their hopes followed by an immediate uprising of the peasants against the nobles.

M. Shupoff, of Moscow, who last week was considered to be a possible compromise Premier, is out with an interview declaring that after the action of the Lower House on Saturday he could not accept the Premiership. The only hope now of saving Russia from a revolution is the formation of a Ministry of Constitutional Democrats, which would throw upon the dominant party in the Lower House the responsibility of fighting the extreme elements.

LYNCHERS RIDDLE BODY OF VICTIM WITH BULLETS

They Get Prisoner After Stunning Sheriff and Smashing Jail Doors.

WADESBORO, N. C., May 28.—A mob of two hundred citizens, after having knocked insensible Sheriff Borgan, early to-day, battered down the doors of the county jail and secured J. V. Johnson, who some time ago murdered his brother-in-law, Quinn Johnson.

The prisoner was taken into the suburbs, where he was strung up to a tree and his body riddled with bullets. At the last term of court Johnson was tried, but no verdict was reached, the jury having stood nine for murder in the first degree, two for second and one for acquittal. The people throughout the county at the time of the murder were indignant over the brutality of the deed, and later by the outcome of the trial.

Gov. Glenn was advised of the lynching to-day, and on the request of the sheriff he has instructed Judge Shaw to proceed here and make a rigid investigation.
